Its New Line Between Baltimore and

Norfolk.

The plan of the Southern Railway Company to run stoamers between Baltimore and Norfolk. Va., has attracted general attention, and was widely discussed in Baltimore during the day. It is a very important move in the direction of the read's extension over new territory and the acquisition of new business. As stated in yesterday's American, the company has contracted for a large, handsome steel passenger and freight steamer, which is to be built by the Cramps, in Philadelphia. The York River Line, which is connected with the Southern railroad, has at garcsent three fine steamers—the Charlotte, Baltimore, and Danville—which connect with the Southern railway at West Point, Va., on the York river. One of these-probably the Charlotte—will, with the new steel steamer, constitute the line to Norfolk. The Southern Railway Company has been called the "Pennsylvania Railroad of the South' since its reorganization, controlling, as it does, over 5.00 miles of road, extending from the tidewater section of Virginia, through the States of Virginia, North Carolina, South Carolina, Georgia, Tennessee, Alabama, and Mississippi.

The Southern considers that Norfolk has great advantages for the handling of both local and through traffle. It has, in connection with the proposed new steamer line, recently purchased extensive waterfronts there, and has contracted for plers and terminal facilities on a large scale. These will enable it to handle its largely increasing traffic in cotton and merchandise, both for Norfolk and also for its steamer connections to Baltimore, Philadelphia, New York, and New England.

When these terminal facilities of the Southern in Norfolk and also for its steamer connections to Baltimore, Philadelphia, New York, and New England.

When these terminal facilities of the Southern will have the choice of shirpping South by way of Norfolk. The company wish it understood that this move teamers will have the choice of shirpping South by way of Norfolk and the mount and policy of extension on its part in thus establis

ALIVE AND WELL

of the Multitude of People Who Have Been Speedily and Permanently Cured

Afte a Dangerous Experience,

Mr. Charles W. Godfrey, of Merchantville, N. J., *says: "I was unable to work for even half a day for a long time because of kidney trouble. What I have suffered during that time, no one but myself knows. Living was a prolonged torment, and became more unandurable every day. I tried every remedy that was suggested, and I sought the best medical advice, but could not obtain any benefit. The physicians said I had Bright's disease, and my case was pronounced helpless. Finally in despair, I went to Professor Munyon, Philadelphia, and began treatment under the eminent specialist there. After taking MUNYON'S KIDNEY CURE a short time, I began to improve, and am now ing MUNYON'S RIDNEY CURE a short time, I began to improve, and am now thoroughly cured of my trouble. I can now perform my work properly without fatigue. I shall always remember Professor Munyon with gratitude."

Munyon's Homoeopathic Home Remedy Company, of Philadelphia, puts up specifics for almost every disease. So prompt and efficient are their curative properlies that any person may be cured

properties that any person may be cured without the expense of a doctor's bill. The remedies are mostly twenty-five cents a bottle, and may be had from any druggist. If you wish advice, write to Professor Munyon, 1505 Arch street, Philadelphia, and he will advise you by letter regarding your allment free of charge.
